WRIGLEY'S SASKATCHEWAN DIRECTORY

VOLUME ONE **1921-22** Pt. 2 TEN DOLLARS

PRESENTING

YEAR BOOK OF SASKATCHEWAN

A COMPILATION of the WONDERFUL RESOURCES OF THE PROVINCE SUMMARIZED FROM OFFICIAL SOURCES.

GAZETTEER & ALPHABETICAL DIRECTORY

DESCRIBING 2117 CITIES, TOWNS, VILLAGES AND SETTLEMENTS, SHOWING BUSINESS AND PROFESSIONAL FIRMS AND LEADING CITIZENS, INCLUDING A LIST OF TRADE-NAMED ARTICLES MANUFACTURED OR REPRESENTED IN SASKATCHEWAN.

CLASSIFIED BUSINESS DIRECTORY

EMBRACING A STANDARD INDEX OF THE BUSINESS INTERESTS OF THE PROVINCE LISTED UNDER 600 CLASSIFICATIONS CONSTITUTING A COMPLETE AND AUTHORITATIVE BUYER'S INDEX—USED BY DOMINION AND PROVINCIAL GOVERNMENTS, CANADIAN TRADE COMMISSIONERS, PURCHASING AGENTS, IMPORTERS AND EXPORTERS. COPIES OF THIS DIRECTORY ARE PLACED GENERALLY IN LARGER CITIES THROUGHOUT THE WORLD.

SUBSCRIPTION: TEN DOLLARS

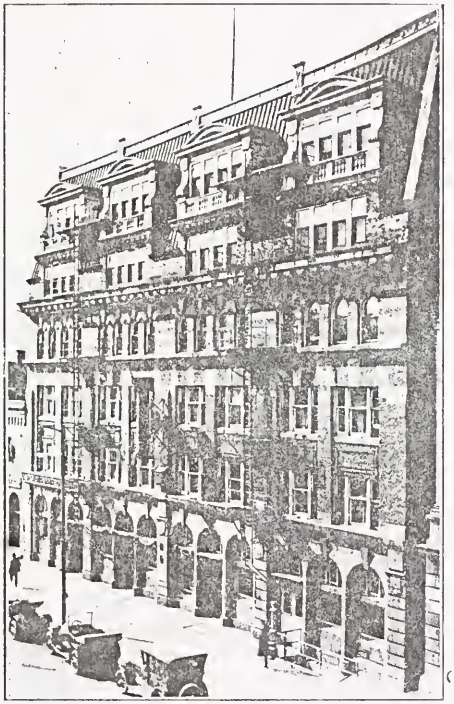
KING'S HOTEL

REGINA, SASKATCHEWAN

REGINA'S LEADING AND FINEST HOTEL



H. R. PETERSEN
Prop. and Mgr.

"One of Canada's Exceptional Hotels." Exquisite appointments in which the comfort and convenience of guests are the first essential.

A modern building, ideally arranged, handsomely furnished and centrally located. The unexcelled cuisine and smart service in the dining and banquet halls have made this hotel the epicurean resort of the Northwest.

Especially conducted with the idea to please the commercial, theatrical and tourist patronage, both as to price and service.

150 Rooms; 75 Baths. American Plan.

Spacious Sample Rooms, $1.50 per Day.

Rates:—Detached Bath, $4.50 and $5.00; Private Bath, $5.50 and $6.00; Parlor Bedroom and Bath, $8.00, $9.00 and $10.00; Twin and Standard Beds.

Maximum of comfort at a minimum cost for permanent guests and parties.

FIVE-PASSENGER 22-45

Every McLaughlin Owner esteems his car because of its dependableness—Its ability to "come through." To this the new 1921-22 McLaughlin Models bring improvements and refinements that add to the joy of possession of every McLaughlin owner.

A new, graceful, low, streamline body; a more roomy interior with comfortable seating arrangement, and a resilient spring suspension which makes riding delightful, are but a few of the new features.

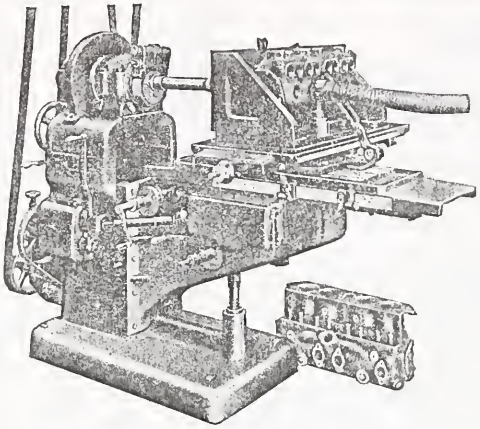
CYLINDER GRINDING

Utmost Accuracy Guaranteed



Special Prices on Ford and Fordson Cylinders

The Heald Cylinder Grinder

WE have a separate department devoted exclusively to grinding gas engine cylinders and fitting with over-size pistons and rings. We use Heald cylinder grinding machines in our shop, together with a Landis machine for grinding pistons. Our method possesses great advantages over ordinary reboring or reaming at no greater cost.

PRICES ON APPLICATION

Discount to Garages and Service Stations

EVERYTHING IN PAPER

CLOSE TO YOU

Head Office:
Vancouver, B.C.

Other Branches:
Winnipeg
Calgary
Edmonton
Victoria

The house of Smith, Davidson & Wright Ltd. has branches located at convenient points throughout the Western provinces. Complete stocks are carried in all these warehouses. These make it unnecessary for dealers and others to tie up funds in heavy orders.

We carry the stock for you.

Rosetown

is situated on the Goose Lake Line of the C.N. Ry., 72 miles southwest of Saskatoon, and on the Moose Jaw Lacombe branch of the C.P.R.

It is the centre of one of the largest grain farming districts in the Province, with a small portion of the district suitable for mixed farming. The residents of this district are practically all Anglo-Saxon.

The town has a population of 1,050, has a large hospital supported by the town and 4 adjacent Rural Municipalities, which provides free treatment for all resident ratepayers of these municipalities.

There are 8 elevators here with a capacity of 350,000 bushels.

Exceptional educational facilities are provided, in a first-class public and high school.

The town is lighted by electricity, furnished by a private corporation.

A rest room is maintained in the town for the benefit of those coming in from the rural district. We have a strong agricultural society and a good live Board of Trade.

The town owns a large rink, which provides winter sports for the town and district and summer sports are also provided for.

The Saskatchewan Government have a central telephone exchange at this point, which is connected up with any point in the Province. This exchange also provides service for seven rural telephone companies, centrolling at this point. Rural lines now in operation cover a distance of over 300 miles of the rural district. Practically every part of the entire district is now served by telephone.

This district will be served shortly by three provincial highways.

The town is also served by the Red and Blue lines of the Dominion Trails Association.

The climate of this district is excellent. The district is not subject to either hail or frost, and a complete crop failure is practically unknown. The average wheat yielded for the district last year was 18 bushels per acre.

Raw farm lands can still be secured at from $20 to $35 per acre, and improved lands can be had at prices ranging from $35 to $60 per acre.

Mayor—Chas. Taylor.

Clerk and Sec.—Jas. W. Heartwell.

Smith F genl store

ROSSDUFF

a P. O. in S24 T24 R10 W3, in Kindersley Dom. Elec. and Jud. Dists., Elrose Prov. Elec. Dist., Moose Jaw Land Reg. Dist. and Mun. No. 256, 12 miles northwest of Lucky Lake, on the C. N. Ry., which is the nearest telegraph, express and bank. Has Presbyterian church and public school. Wheat is grown chiefly, land averaging from $20 raw to $28 improved. About 250 farmers in vicinity.

Rose Geo F postmaster

ROSSETTI

a former country P. O. in S22 T11 R32 W1, in Assiniboia Dom. Elec. Dist., Pipestone Prov. Elec. Dist., Cannington Land Reg. and Jud. Dists. and Mun. No. 92, 6 miles northwest of Fairlight, on the C.P. Ry., which is the business centre.

ROSS JUNCTION

a siding on C. N. Rv., in S28 T30 R3 W2, in Mackenzie Dom. Elec. Dist., Canora Prov. Elec. Dist., Yorkton Land Reg. and Jud. Dists., and Mun. No. 273, 20 miles northwest of Kamsack, and 3 east of Canora, which is the business centre.

ROSSMAN

a farming district and station in S2 T41 R21 W3, in Battleford Dom. Elec. Dist., Battleford Jud. Dist., and Mun. No. 439, 2 miles north of Cut Knife, on the C.P. Ry., and on C.N.-G.T.P. Ry., 31 miles west of Battleford.

ROTAVE

in SW24 T13 R30 W1, in Qu'Appelle Dom. Elec. Dist., Moosomin Prov. Elec., Land Reg. and Jud. Dists., and Mun. No. 121, on C.P. Ry., 3 miles southeast of Moosomin. This is simply a passing siding on the C.P.R. and is not used for any other purpose. All business of the district is done at Moosomin.

For Saskatchewan Government information and officials, see page 43.

Rosthern

In the Electoral Division of Rosthern, on Canadian National Railways, 50 miles south of Prince Albert and 42 miles north of Saskatoon —a live town in one of the best agricultural districts in Western Canada. Farmers prosperous and going into mixed farming and dairying to a large extent. The home of Dr. Seager Wheeler, world famous wheat breeder and experimenter. Dr. Wheeler has won six world sweepstakes for spring wheat and has recently developed two new wheat varieties, Kitchener and Red Bobs, which strains promise to be of inestimable value to the prairie farmers of the west.

In 1920 Queen's University conferred upon Mr. Wheeler the Honorary Degree of Doctor of Laws. This is the first instance where a Canadian University conferred an honorary degree upon a practical farmer for outstanding service to his industry. Population 1400.

Mayor—R. S. Fleury.

Wrigley Directories
Limited

Publishers of Alberta, British Columbia and Saskatchewan Provincial Directories. Also the following well-known National Directories:

Hotel Red Book of Canada

The standard hotel, travel and summer resort reference guide covering Canada, containing the official announcements of Canadian railways regarding tourist resorts, together with information of hotel facilities, rates, etc., in Canada, the United States, Great Britain and foreign countries, the world over. Eleventh Year, 500 Pages, Postpaid, $3.00. Published annually in January.

Storage and Transfer Directory

Lists the transfer, storage and distributing firms in Canada, United States, Great Britain and in foreign countries. Gives rates and information indispensable to shippers and traffic managers. Includes digest of customs regulations. Sixth Year, 275 Pages, Postpaid, $3.00. Published annually in January.

SASKATOON

Saskatoon serves a vast area in the most famous wheat growing territory in the world. Saskatoon is the youngest of the important cities of Western Canada. Twenty years ago when cities like Vancouver and Winnipeg had attained greatness, Saskatoon was not even an incorporated village. Today it is a modern city owning all its public utilities, such as water supply, electric light and power, street railway, parks, and public library.

Saskatoon has 62 miles of graded streets, 18 miles of which are boulevard, and 6 miles paved with asphaltic concrete, 54 miles of concrete sidewalk, and 15 miles of board sidewalk.

Population, Jan. 1st, 1921, a very conservative estimate, 30,000.

SASKATOON

SOME OF THE BUSINESS BLOCKS IN SASKATOON

Saskatoon's picturesque site on both banks of the broad and swift flowing river and its central position in the province insured its choice as the site of the seat of the University of Saskatchewan.

Saskatoon is also the geographical centre city of the three Prairie Provinces, on all three lines of railway and the midwestern headquarters of the Canadian National Railway, therefore the logical location of many wholesale firms. The territory tributary to Saskatoon aggregates 47,000 square miles, with 2,500 miles of operating railways and embraces a number of large towns and a host of small villages.

Shaunavon

a town in S17 T8 R18 W3rd, Maple Creek Dom. Elec. Dist., Cypress Prov. Elec. and Jud. Dist., Swift Current Land Reg Dist., Mun. No. 78, on C. P. R. 118 miles west of Assiniboia. Has Govt. Telephones, C. P. Telegraph and Dominion Express. This is a divisional point on the Weyburn-Lethbridge Branch, and is also reached by livery, from the main line of the C. P. R., from Gull Lake, 35 miles north. It is a fast growing town with a present population of 1300 and bids fair to be one of the best towns on the south lines. At present it has five churches, public and high schools, three banks, which have very fine buildings, hospital, flour mill and a cold storage plant besides the usual fine assortment of retail stores. The town is lighted by electric light supplied by a privately owned plant. There is a fine picture theatre here with stage for movies and drama. The district is adapted to wheat-growing and ranching, and a complete crop failure is practically unknown.

SHELLBROOK

[illegible]

cessful in producing the Provincial championship wheat in 1920, as well as numerous other prize winning exhibits. There are some excellent herds of cattle owned by farmers in the district, which is generally conceded to be an ideal mixed farming country. Shellbrook is fortunate in having an excellent four-roomed school with high school facilities. There are Anglican, Presbyterian and Roman Catholic churches in the town with excellent Sunday Schools attached. There is an active Board of Trade and the prospects for the future development of the town and district are very bright. The hotel is one of the best along the line. The population of the village is close to 500 people and social and athletic activities are well looked after.

Sec. Board of Trade.
T. H. ROSSER,

a P. O. in S2 T51 R7 W3, in North Battleford Elec. Dist., Shellbrook Prov. Elec. Dist., West Saskatchewan Land Reg. Dist., Battleford Jud. Dist. and Mun. No. 495, 13½ miles west of Canwood, on the C. N. Ry., which is the nearest telegraph, express and bank.

McDonald Rev D D postmaster

STAR CITY

The town is in the heart of the Carrot River Valley, and has a population of about 800. It is surrounded by a rich farming community, the soil being black loam with a clay sub-soil. The rural population is large and the farmers generally are in good circumstances. There are two banks, five elevators with a capacity of about 200,000 bushels, three lumber yards, five general stores, two hardware stores and other stores, and there are also three churches and a good school. The district is well watered and it is an ideal stock raising country. The land sells from $25.00 to $60.00 an acre

STEWART VALLEY

a farming district in S8 T19 R13 W3, in Swift Current Dom. Elec., Prov. Elec., Land Reg. and Jud. Dists., and Mun. No. 167, 16 miles southwest of Success on the C.P.R., which is the nearest telegraph, express and bank.

STINSON

a former P.O. Mail now distributed from Colgate.

STOCKHOLM

in Sec. 25, T. 19, R. 2, W2, in Saltcoats Dom. Elec. Dist., Pheasant Hills Prov. Elec. Dist., Moosomin Land Reg. and Jud. Dists. and Mun No. 183, has a good safe farming district surrounding it, also excellent railway facilities. It is located on the Pheasant Hills branch of the Canadian Pacific Railway, being distant 80 miles north west of Elkorn.

The country tributory to Stockholm is traversed on the north by the Little Cut Arm Creek and the famous Qu'Appelle River on the south, while the Grand Trunk Pacific Rly., also lies a few miles north of Stockholm. This district being contiguous to the fertile Qu'Appelle valley, naturally abounds in the picturesque, wherein is revealed nature's handiwork in her innumerable and ever changing, but none the less pleasing aspects.

The rolling prairie, interspersed with small lakes, ravines and creeks, with clumps of Poplar growth merging into belts of larger trees suitable for building logs, promiscuously lotted about, together with the luxurient carpet of rich native pasture, besides being replete with the picturesque, all combine unequivocably to proclaim this place as an ideal mixed farming region.

The rolling, bluffy prairie land traversed by the rivers, enjoys a splendid drainage throughout. The soil consists of a rich black loam about 12 inches deep, with a good moisture-retaining sub-soil of clay, excellent crops of grain being successfully raised therefrom. As one would naturally expect from a soil of this nature, large areas of the fertile Virgin prairie in this locality has been brought under the plough, and the success attending the varied farming operations carried out thereon is a sufficient criterion of the good land that the farmers have to deal with. At a rough estimate it is computed that the amount of new breaking for the past season showed an increase of 40% over the previous seasons. The grain yields, too, for the past season proved highly satisfactory, the total amount of wheat approximating 300,000 bushels and oats 25,000 bushels, while 200,000 bushels were retained for seeding and feeding purposes.

Prevailing conditions throughout this district adapt it as a good cattle raising country, the bluffy nature of the locality, especially on the south where there is an abundance of rich hay and feed, affording every facility for this highly important and profitable branch of agriculture. Large numbers of animals are raised here, something like tens cars being shipped out of this district last season. Dairying and poultry raising in its varied branches are proving highly profitable to the farmers who have taken it up seriously. Large quantities of butter and eggs are shipped and a considerable amount of cream is sent to the Government creamery at Tantallon. Land in the Stockholm district generlly commands good price s and are always good buying. Good Virgin prairie averages from $18 to $25 per acre, while improved can be obtained from $30 to $50 per acre according to location. Population 200.

STOUGHTON

is a village of 480 population and is situated on the Souris-Regina branch of the C.P.R., and is the eastern terminal of the Stoughton branch of the C.P.R., 90 miles southeast of Regina and 35 miles from the American boundary.

The population is of British origin and are alive to the interests of the district. Surrounding the village is a district 12 by 24 miles and peopled by progressive farmers who have good buildings and well improved lands, devoting their energies to growing grain, and the best types of horses and cattle. Four elevators and brick plant in constant use. The village has one up-to-date hotel, two general stores ,two hardware stores, three restaurants, one lumber yard, two blacksmith shops and wagon shop in connection, two implement warehouses, an up-to-date garage, Ford specialty and an auto tire station equal to any tire trouble. There are three churches, a good four room school, taking high school work, skating and curling rinks, town hall, picture show, agricultural society and golf club. Two banks attend to the financial wants, while agents for insurance, loans and lands are well represented. Telephone exchange phones. The Stoughton Times has a big printery without opposition and serves the news of the district weekly.

Swift Current

is a divisional point on the main line of the Canadian Pacific Railway and the only city in Southwestern Saskatchewan. On January 1st, 1921, it had a cross-your-heart population of 4,500. It is the logical commercial, distribution and judicial centre for an area that embraces over 20,000 square miles of fine agricultural territory. By reason of its strategic location, Swift Current is a natural railway centre, and in this regard is enjoying a substantial, practical development, radiating no fewer than three branch lines of the Canadian Pacific. The Swift Current-Empress branch, running northwest, connects with Calgary, via Bassano. A southern branch runs to Vanguard and will eventually connect with the Weyburn-Lethbridge line to the south. The Swift Current-Archive branch is under construction eastward. It may also be noted that there is a loop line under construction from Leader, on which twenty-five miles of steel is laid, which will make the fourth branch of the above road to connect with the city. The latter line is of great importance as it will open up a vast tract of country of great fertility at present far removed from railway facilities. Swift Current will shortly be connected with the Canadian National Railway, the steel from Gravelbourg being within 35 miles of the city. Completion of this line was promised for 1921, with terminals located, but it is unlikely the road will reach the city this year. Swift Current is 110 miles west of Moose Jaw and 140 miles east of Medicine Hat, the two nearest cities.

Swift Current is noted, next to the district's agricultural prominence, for its splendid and superior public and institutional buildings. It is safe to say that no city in Canada of similar size is quite so thoroughly equipped in this regard. These embrace magnificent churches, public school buildings, hotels, apartment blocks, office buildings, wholesaling plants, court house, telephone exchange, city hall, fire hall, theatres, hospital, etc., in addition to numerous fine, modern residences. All classes of business are represented and exceptional facilities are provided for supplying the outlying communities with practically all requirements of a commercial and industrial nature. Besides numerous wholesale groceries, implement and building material plants, there is a large, modern creamery, with which is combined an ice cream plant that supplies the whole territory, and to which cold storage facilities are to be added shortly. The retail trade is particularly well covered by a large number of first-class stores. There is a weekly and a semi-weekly newspaper, steam laundry, flour mills, aerated water factory, cement products factory, planing mill, numerous elevators, lumber yards, coal sheds, and the usual run of innumerable business enterprises. It is especially noteworthy that Swift Current possesses two hotels not surpassed in the province. Educational facilities are augmented by a Collegiate Institute, Public Library and business college; while in addition to a very efficient municipal general hospital, there is a privately conducted medical and surgical clinic, operating to much community advantage in a specially-built $45,000 block uptown. The city owns fine exhibition grounds and race track, which are utilized annually by the Swift Current Agricultural Society for their excellent summer fair. For the benefit of motorists it may be mentioned that Swift Current has four or five fine garages, one of these being perhaps the equal of anything in the province. Ample provision is made for sports of all kinds. There are two fine golf courses, numerous tennis courts, baseball and football clubs, skating, hockey, swimming, athletic grounds, etc. The city possesses several splendid park sites, which will be further developed as finances permit. Swift Current was the first city in Saskatchewan to adopt a town planning scheme, which will take care of the expansion period to the general welfare of the future. Contiguous to the city and easily accessible are two fine summer resorts—one at Lac Pelletier and one at Saskatchewan Landing—that afford motorists fine summer diversion.

The location of a Dominion Lands office and Provincial Land Titles office, together with other institutions functioning for the general judicial requirements, including Provincial Police and Royal Canadian Mounted Police headquarters, add considerably to the importance of Swift Current as a district centre, and are responsible for a not inconsiderable share of the large transient trade and constant stream of community patronage that exists.

Swift Current owns its electric light and water systems, operating extensive services in these departments, as well as in connection with sewage, sanitation, etc. An abundant supply of pure water is among the important assets, the supply being sufficient for all the requirements of a city of 50,000 or more. There is room here for a number of industries to utilize the farm products of the district, and the city has 40 acres set apart for industrial sites which are offered manufacturers at cost.

Swift Current is well supplied with fraternal organizations, and other bodies that are active in the general welfare, including a Rotary Club, Local Council of Women, etc. There is a Board of Trade that includes both urban and rural members, and this body is at all times prepared to give fullest information concerning the city and district to all enquirers.

The Swift Current area may be said to be now entering upon the third stage of its development career. The territory is as yet comparatively young in its agricultural existence. Certainly, there was no such thing as intensive cultivation for farming purposes fifteen years ago. At that time, and for long years previous,

the country was devoted to the pursuit of ranching, and in these endeavors much renown was achieved. Gradually, however, settlement for farming purposes gained ground, and in a few years' time the district attracted widespread attention for its highly prolific grain yields, the quantity and quality of wheat production being nothing short of phenomenal. Very rapid headway was made with settlement from 1910 to 1914, and in certain years settlers literally made wheat fortunes from a single season's operations. Until 1914 there was only one year since the start of farming when there was a crop failure. In 1915 the biggest yeld in the history of the district and the biggest acreage averages in the history of wheat growing anywhere in the universe were realized. Averages as high as 74 bushels to the acre were recorded; this being No. 1 hard and weighing as much as 69 pounds to the bushel. Only fair returns were realized in 1916 and 1917, while the following two years were practically failures. In 1920 the returns were below average, although the crop to within a week or so of harvest promised heavy returns.

These recent experiences with dry seasons (in common with several other portions of the province) have caused progressive farmers and community organizations to cast about for a solution to the agricultural problems that is apparent, it being quite evident to intelligent husbandmen that it is not exactly profitable enterprise nor good business to pin faith absolutely to bumper wheat yields in order to make a living from the land and to lay up comfortable bank accounts. These experiences, then, may be said to mark the beginning of the third epoch for agriculture in the district —an epoch that promises to effect processes whereby success will be achieved through safe and sane methods.

To these new ends a Better Farming Conference was convened by the Provincial Government and held at Swift Current in July, 1920. Here were called together experts from all sections of the continent, and an exhaustive survey was made of the whole agricultural situation. An immediate result of this conference was the appointment of a Royal Commission which travelled through Southwestern Saskatchewan and accumulated a mass of data that is of a highly important character. This commission is still operating and it is conservatively estimated that the final results of its endeavors will be worth many millions to the economic progress of this portion of the Province. The commission found that there were farmers in the district who, despite drouth, had never experienced a single failure. The methods of such men were recorded. For one thing it was found that many were getting excellent results from the planting of spring and fall rye. The necessity for crop rotations was brought home in pronounced form, as also was the need for improved tillage methods. It is becoming known that certain feeds will always yield profitably; and, above all, it is the confirmed opinion now that mixed farming must supplant the so-called "grain mining" upon which so many farmers depended to get rich quick to to enjoy the beaches of California and Florida in winter months.

In 1920 the Dominion Government also took an active interest in the efforts for a solution to the problems of the area, and decided to at once establish an Experimental Farm at Swift Current. Actual work on this farm was started in the spring of 1921, with the breaking of 485 acres of land and the erection of several buildings needed immediately. It will probably take five years for this farm to demonstrate beyond doubt the utmost that is to be gained from the rich lands of the wide area involved. The steps by both Provincial and Federal Governments, however, are lending a vastly increased spirit of confidence to the farmers, and they will unquestionably prove of immense future benefit.

The writer believes that these remarks are important because of their potential value. Because these steps are being taken by Swift Current district does not mean that the district has disadvantages greater than other districts. Rather, it means that the farmers do not purpose going on blindly with agricultural development year after year. As soon as they knew they were confronted with vital problems they took immediate steps to rectify mistakes and to solve their adverse conditions. It would have been vastly better for the whole of Western Canada had other and older districts taken similar action when they passed through their periods of even greater adversities (for every prairie section of the country has known its period of baren years). As a matter of actual fact, the official statistics issued by the Provincial Department of Agriculture will show that even for the past six years the Swift Current district stands well up among the other eight official agricultural areas of the Province in the matter of rainfall and in crop returns. It runs, in fact, from the top of the list to at no time lower than fifth place. The Swift Current district, than, within comparatively few years, has graduated from ranching to grain growing to diversified farming. In the latter state of agricultural blessedness time will prove that the territory has entered into its own, and is destined to become one of the most important regions that contribute in generous measure to the economic productivity of the nation.

In closing, it may be remarked that the Board of Trade of Swift Current has many valuable trophies to prove the prowess of her district's soil. These include a shield for winning the world's prize for the best all-round district exhibit at the International Dry Farming Congress at Tulsa, Okla., in 1913. In 1915 Swift Current took second in a similar competition at Denver, Colo., but in the Saskatchewan entries easily won the coveted cup for first place. At the Dry Farming Congress at El Paso, Texas, in 1916, some twenty prizes in all were captured by this district, while in 1917 at Peoria, Ill., the products of the area again stood well to the forefront.

COCA COLA BUILDING
Winnipeg

The price of raw lands in the Swift Current district range from $20 to $30 per acre, while improved farms may be purchased, according to location, at from $35 to $75 per acre. It is essential that these comparatively low prices will enhance with continued development.

TIXFORD

(See Tuxford)

TOBY'S

a farming settlement in S17 T12 R28 W2, in Moose Jaw Dom. Elec. Land Reg. and Jud. Dists., Moose Jaw County Prov. Elec. Dist. and Mun. No. 102, on C.P. Ry., 32 miles southwest of Moose Jaw, and 3 northeast of Expanse, which is the nearest telegraph, express and bank. This is purely a gravel pit and water station on C.P.R.

Rhodes Harry pumpman CPR

TOGO

a P.O. and thriving village in S1 T28 R30 W1, in Mackenzie Dom. Elec. Dist., Pelly Prov. Elec. Dist., Yorkton Land Reg. and Jud. Dists., and Mun. No. 271, at the border line of Saskatchewan and Manitoba on the C.N.R. Saskatoon-Winnipeg line, 257 miles west of Winnipeg. Togo is surrounded by a very prosperous class of farmers of mixed nationalities. The land is black loam with a clay sub-soil, and of a rolling nature, and in sections is well wooded, making splendid shelter for cattle, and at the same time supplying its inhabitants with timber for fuel and fencing. Population 350.

Vonda

Vonda is an incorporated town in S4 T39 R1 W3, in Humboldt Dom. Elec., Land Reg. and Jud. Dists., Vonda Prov. Elec. Dist. and Mun. No. 372, on the main line of the Canadian National Railway, 170 miles west of Winnipeg, and 35 miles northeast of the University City, Saskatoon. It is the market centre for a very fine farming district, where frost and hail are scarcely known. For a great many years Vonda wheat shipments were only equalled by one or two other points in Saskatchewan.

It is an exceedingly well-developed town, industries and businesses necessary to an up-to-date farming centre are well represented. Its population, of 500 persons, is contented and comfortably housed in beautiful homes, in the best townsite on this line of railway, with its wide streets, beautiful rows of trees and good sidewalks.

The public institutions consist of a spacious town hall with a splendid auditorium, fire hall and police quarters; a municipal electric light and power plant, housed in a large structure and built of brick, tile and concrete. The public school is a four-roomed solid brick building with full basements and modern in every way; a public park and grounds and buildings of the Vonda Agricultural Society.

Five elevators, a large cold storage plant, machine shops, etc., are found here, and go to make the business of mixed farming and grain growing in this community successful.

The district surrounding the town is excellently adapted to mixed farming, although several large grain farms are successfully conducted. Water is plentiful and exceptionally pure, and the soil is free of alkali, stone, sand or gravel, being mostly black loam on a clay subsoil. In short it would be difficult indeed to find a better farming district where land could be purchased at prices prevailing here.

Full information will cheerfully be given by addressing:

E. CLARK,
Mayor.
J. H. CURRIE,
Town Clerk.

Mayor—E. Clark.
Councillors—Geo. McIntosh, C. D. McGregor, Alex. McDonald, D. M. McKellar, D. J. Michasiw, Ed. Caille.

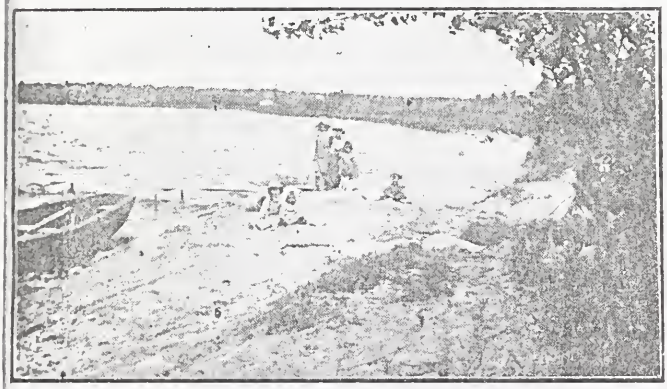
WACHEE

a farming district in T46 R3 W2, in Prince Albert Dom. Elec. and Jud. Dists., Tisdale Prov. Elec. Dist., West Saskatchewan Land Reg. Dist. and Mun. No. 453, on C. N. Ry. 9 miles north of Hudson Bay Jct. which is the nearest telegraph office. Has C. N. express (no agent). Nearest bank at Tisdale, 70 miles southwest.

Wadena



SABBATOWASIS LAKE

The town of Wadena, having a population of 850, is admirably situated on the C.N. Edmonton to Winnipeg line, about 365 miles west of Winnipeg, and 140 miles from Saskatoon, on the east edge of the northeast Saskatchewan park lands. Also it bids fair to become a railway centre, as the C.P.R. have a proposed line to run through Wadena from Tuffnel to Prince Albert.

Wadena is the centre of a mixed farming district and is long past the experimental stage. This is verified by the fact that Wadena has four elevators, 1 flour mill, large stock yards, and has been recognized by the C.N.R. as one of the largest shipping points for export beef cattle.

Wadena has a co-operative creamery that took second place for output of the 22 creameries of the Province in 1919. The first was Regina, a large centre that draws from a much larger area.

Wadena has a municipal hospital, a high school that is turning out many graduates, a large mileage of rural telephones and many conveniences that will indicate the agricultural development and prosperity of the district. All this has been accomplished with not more than 40 per cent of our farm lands under agricultural operation. What will complete settlement bring forth?

The "Last West," published by the C.N.R. Resources Department of Oct. 1919, said: "A train load of 27 cars of farm raised cattle was shipped from Wadena, Sask., to U.S. markets last week. This shipment was valued at $100,000. A lot of stockers are being taken into the district to be finished."

There is near Wadena one of the finest summer resorts to be found in Saskatchewan, called Sabbatowasis. It is within easy reach of a town, added to the pleasures of boating, bathing, fishing, etc.

Moose Jaw, SASK.

Watrous

a town with a population of 1,200, is situated in central Saskatchewan, midway between Winnipeg and Edmonton, and 60 miles east of Saskatoon. A divisional point on the main line of the Grand Trunk Pacific, now the Canadian National, and with direct connection by branch line to the city of Prince Albert, and by C.P.R. to the cities of Regina and Moose Jaw. Surrounded by a farming district second to none in the Province of Saskatchewan. Within three miles lies the famous mineral lake, "Little Manitou," now acknowledged to be one of the most popular summer resorts in Western Canada.

The town of Watrous has exceptional school facilities, electric light and a never failing supply of water, obtained from springs located near the town.

Farm land in the neighborhood of Watrous sells as high as $75 per acre and the average yield for several years has been high, with no crop failures from drought in the history of the district.

Mayor—E. Garrett.

Councillors—J. F. Clarke, Geo. Robinson, Geo. Trenholm, W. E. Thornsloe, A. J. Gordon, E. B. Miller.

Sec.-Treas.—Wm. Pickering.

WATSON

Watson is a busy and prosperous little town of 400 people in that far-famed agricultural country known as the Great Quill Plains. It is located on the C. N. R. 399 miles west of Winnipeg, and on the new C.P.R. line 135 miles straight north of Regina.

The town has 3 churches, 2 schools, 4 elevators, 3 implement shops, electric lights, telephone exchange, 2 lumber yards, and a creamery. The stores are more substantial and carry larger stocks than can generally be found in town of this size. The King George Hotel is highly praised by the travelling public. The Alexandria House and Burdick's cater chiefly to the agricultural and home trade. The Bank of Commerce occupies a fine building and attends to the financial wants of the district. The Watson Witness prints the local news and shares in the general prosperity of the district.

The Imperial Oil Co. and the Western Canada Flour Mills Co. do a wholesale business here. Tractors are now used on many farms in this district. Over 50 autos are owned in town, and a car is part of the equipment on many farms around. The Imperial Oil Co. have erected a substantial warehouse and their tanks at Watson have a capacity of 32,000 gallons.

Watson has cement sidewalks and crossings, a town hall, police barracks, town wells and fire equipment, all owned by the town, and the debenture debt is almost entirely paid off.

The district is well adapted for mixed farming. The soil is a deep rich black loam, there is a moderate rainfall and no crop has been dried out. There is no drifting of soil and very little damage by hail. Good water is found everywhere at moderate depth. Poplar bluffs afford shelter, and wood is the common fuel in every farm home.

The first settlers arrived here in 1902, and the C.N.R. trains arrived here in 1905, and there has been a steady progress ever since. Now there are graded roads in all directions, and rural telephones link up with the town and long distance lines.

Wild land can be bought at $15 to $30 an acre. Improved farms sell at $25 to $50 an acre. If looking for a location see Watson.

H. A. Green, President; G. H. Cameron, Secretary, Watson Board of Trade.

Mayor—Hugh A. Green.

WESTVIEW

a farming district in S14 T18 R28 W2, in Moose Jaw Dom. Elec., Land Reg. and Jud. Dists., Thunder Creek Prov. Elec. Dist. and Mun. No. 162, 12 miles northwest of Moose Jaw which is the nearest telegraph, express and bank.

Weyburn

a City on the C. P. R. main Soo line between Minneapolis and Moose Jaw, on the C. P. R. Winnipeg-Lethbridge branch, and C. N.-G. T. P. Ry., 125 miles south-east of Regina, 91 miles south-east of Moose Jaw, and 315 west of Winnipeg. Is on the Souris River, S30, T8 R14 W2 in Weyburn Dominion and Provincial Electoral Districts, Assiniboia Land Registry and Weyburn Judicial Districts, Municipality No. 67. Has C. P. R. and C. N. telegraph, and C. N. and Dominion Express.

Weyburn is the important distributing centre of Southern Saskatchewan, and enjoys all civic advantages, with many Dominion, Provincial and local government offices, including Dominion Lands, Customs, judicial centre, and a detachment of the Sask Provincial Police. The Saskatchewan Government is erecting a mental hospital here at a cost exceeding several million dollars.

In the district there are clay, sand and gravel deposits. Good water. Centre of a rich farming district. The soil is a heavy chocolate loam about two feet in depth with clay subsoil. Average price of land $30 raw and $50 improved per acre. Population 4200, and of the district 25,000. Further information on application to Industrial Commissioner.

Wynyard

a P.O., town and divisional point on the Winnipeg-Edmonton main line of the C.P.R., in S27 T32 R16 W2, in Humboldt Dom. Elec. Dist., Wynyard Prov. Elec. and Land Reg. Dists., Humboldt Land Reg. Dist., and Mun. No. 308, 365 miles west of Winnipeg, and 100 miles east of Saskatoon. Business and professional interests are represented by 2 banks, 3 medical offices, 2 law offices, 1 hotel, 5 general stores, 2 lumber yards, 2 harnessmakers, 2 blacksmiths, 1 barber shop, 1 drug store, 1 furniture store, 2 hardware stores, flour and feed store, 2 shoemakers, 3 paint shops, printing and publishing office, livery stables, butcher shops, machine shops, building and contracting firms, 3 garages, etc. Wynyard is the centre of a large and important judicial district, the public building for which is located here. Has public and high school of first-class standing, with 8 teaching staff of 8. It is expected that a public building, including P.O. and customs house, will be erected in the near future as an appropriation has been made for this purpose by the Dom. Govt. In town there are at present 4 churches, town hall, theatre, fire hall, post office, skating and curling rink, 2 grain elevators, telephone exchange with local and long distance connections. The station buildings, round house and other extensive equipment of the C.P.R. are fully up to modern terminal improvements. Land values average $25 for unimproved and $50 for improved. Population, 1,000

Yellowgrass

An important centre for the farmer, business or professional man, situated about twenty miles northwest of the city of Weyburn, on the Soo line of the C.P.R., about half way bebtween Moose Jaw and Estevan, having a popukation of over 600, and the trading centre for a farming population of about 1,500, making 2,100 in all.

Yellow Grass constitutes one of the most prosperous and progressive centres in Saskatchewan. The soil is rich and unbroken with sloughs or rough spots, and has not failed to produce a crop in twenty years. A wheat-producing soil of the highest quality, yet because on most farms good water in abundance can be secured, the district lends itself to profitable stock raising. Some of the finest modern residences in the land are found on some of the Yellow Grass farms.

The town of Yellow Grass can boast of three things in particular, first the finest water and water system in Southern Saskatchewan. The town is practically immune from damaging fires. Second, as fine a lighting system as there is in the country, and at a moderate charge. Third, not excluding any of the cities, one of the most attractive and best kept parks right in the centre of the town that there is in the Province. Yellow Grass has one hotel, four elevators and two banks, some thirty business concerns all doing good business, a school having six teachers doing the complete high school work, five churches and five resident ministers, and a community skating rink with 165 shareholders. The Sask Provincial Police have a detachment headquarters here It would be difficult to find as desirable a town to settle in as Yellow Grass.

YOUNG

is situated on three lines of railway, 60 miles from Saskatoon, 120 from Regina and 112 from Prince Albert. The lines are C.P.R., the Canadian National and the Grand Trunk. It is in the centre of what is known as Central Saskatchewan and the wheat belt of the West. The land is of a rich clay loam, and almost exceptional crops have been reported, and the average crop yield here is above normal. The value of this land is listed at the very low price of from $20 to $30 per acre. Last year the amount of crop was estimated at 61,000 acres, and this year, despite the late season, will be equally as much. The total elevator capacity is about 105,000 bushels, and again last year, despite failures elsewhere, 400,000 bushels were shipped from this point. This does not include what is shipped from the F. A. Bean Farms, who cultivate in the neighborhood of 12,600 acres, close to Young. As a railway centre Young is unsurpassed, being served as stated above, and shipments of all kinds receive ready service. Another leading feature of Young's location is its close proximity to the north end of Lake Manitou, which waters are known the world over for their medicinal benefits. Young is only four miles distant from this wonderous and beneficial water, and many citizens take advantage of this close accessability to the lake, especially those from the north and west of Young. We heartily recommend Young and its district to anyone desirous of or looking for a location. Especially so is it adapted to wholesalers and manufacturers, where electric power and railway service is so essential. Young has a population of about 400, and the inhabitants in and adjacent are of a healthy, industrious and prosperous nature, being Canadians and Americans.
